GST has also given rise to a considerable number of disputes and litigations. These disputes mainly arise due to various complexities in the GST law, differing interpretations, and the involvement of multiple stakeholders, including taxpayers, tax authorities, and appellate bodies.

### MORE ABOUT GST LITIGATION AND DISPUTE

#### RESOLUTION:

GST litigation refers to legal disputes or conflicts that arise within the framework of the Goods and Services Tax (GST) system. It involves cases and issues related to the interpretation, application, and compliance of GST laws and regulations. Examples of matters and issues that can be categorized as GST litigation are carrying forward transitional credit, Input tax credit eligibility, Denial of refund claims, Non- payment or short payment of output tax liability.

GST litigation can have significant impacts on taxpayers, affecting their finances, business operations, and overall compliance with the tax regime. Here are some key ways in which GST

litigation can impact taxpayers Financial Burden, Uncertainty and Delay in business planning, investment decisions, and budgeting, leading to operational disruptions, Blocked Working Capital, Compliance and Reconciliation Challenges, Regulatory Scrutiny, leading to additional audits or investigations.

### CHALLENGES FACED BY TAXPAYERS IN GST LITIGATION:

- **Complex Legal Provisions:** GST law is intricate, with numerous provisions, exemptions, and rate classifications. Understanding and interpreting these provisions accurately can be challenging, leading to disputes between taxpayers and tax authorities.
- **Multiple Jurisdictions:** GST is a dual tax system, where both the central and state governments have the authority to levy taxes. This can lead to disputes over jurisdictional issues and create complexities in GST litigation.
- **Frequent Changes in GST Laws:** GST laws and rules have undergone several amendments since its implementation. Keeping track of these changes and their implications can be difficult for taxpayers,

- Input Tax Credit Disputes: Determining the eligibility of Input Tax Credit (ITC) can be challenging, especially in cases involving inter-state transactions, capital goods, and blocked credits. Disputes over ITC can be a common reason for GST litigation.
- Valuation of Goods and Services: Disputes may arise regarding the correct valuation of goods and services for the purpose of determining the taxable value and the applicable GST rate.

As the law stands, without specific guidelines on what constitutes 'interest of revenue', the possibility of the initiation of recovery proceedings to fulfil various demands, including self-assessed tax, cannot be ruled out. To mitigate such litigation, it is important for taxpayers to install checks and balances at all stages in the form of periodic internal and external compliance reviews, right from maintenance of books and documents, self-assessment, audit/assessment, and adjudication with the help of qualified Chartered Accountants, who are the heart of the Indirect Tax regime in India.

The same will not only aid from a tax compliance perspective but shall also facilitate an improvement in the overall financial position of the taxpayer. Prevention is better than cure, as, for the Department, the recovery of tax is as important as the levy!

## FACELESS PROCEEDING UNDER THE INCOME TAX ACT, 1961

### EVOLUTION:

India has been at forefront of several initiatives in e governance. One of the most popular initiatives is Faceless Assessment. The faceless assessment scheme was introduced in India on 13th August 2020. Objective of faceless or seamless assessment is to eliminate human intervention as well as interface between taxpayers or tax officials. This leads to bringing more transparency and efficiency in assessment procedures. The assessee would not know who is the tax official handling his assessment. The tax official would not know the exact identity of assessee.

**In Budget 2018**, Late Mr. Arun Jaitley in his budget speech proposed to amend the Income Tax Act to notify a new scheme of assessment where the assessment will be done through electronic mode which would almost eliminate person to person contact leading to greater efficiency and transparency. Accordingly latter in Feb 2018 CBDT directed that except for search related assessment, proceedings in other pending scrutiny assessments shall be conducted only through 'E-Proceedings'. This functions in ITBA for which CBDT issued instructions for conduct of assessment proceedings through 'E-Proceeding' facility during 2018-19 and notified **E-Assessment Scheme, 2019**.

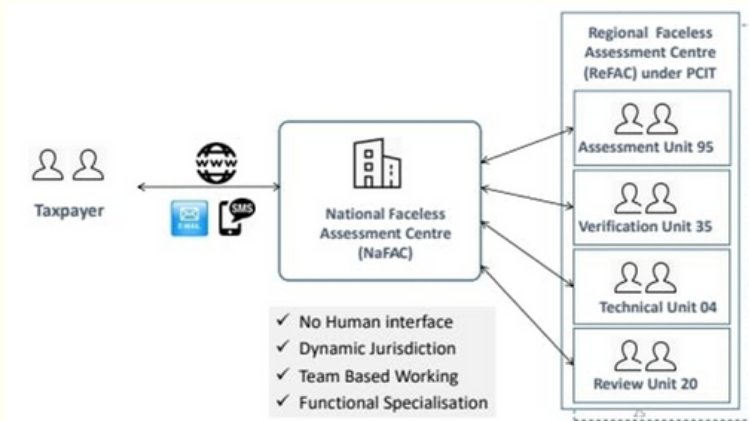

**In August 2020**,

Hon'ble Prime Minister of India launched '**Transparent Taxation-Honoring the Honest**', which is a platform to meet the requirements of the 21st century taxation system. The platform has major transformations like Faceless Assessment, Faceless Appeal and Taxpayers' Charter.

**Gaurav Sikhwal**

### STRUCTURAL FRAMEWORK

### The Faceless Assessment Scheme comprises the following units:

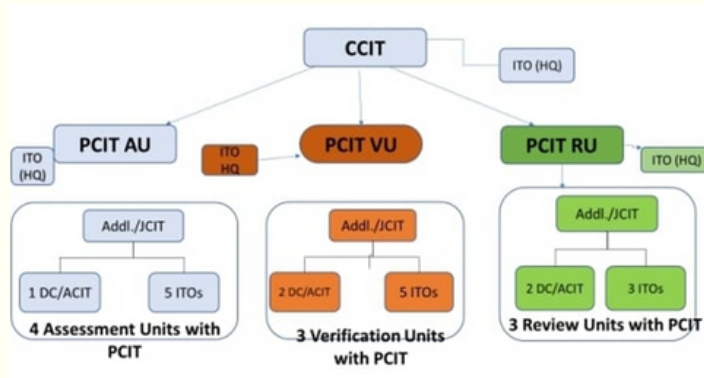

Inflation has impacted economies worldwide. The United States of America (USA) has experienced a 40-year high in inflation due to factors such as global supply chain disruptions and rising petrol and food prices. The European Union (EU) has faced record-breaking inflation levels, particularly following heavy sanctions on Russian oil. India has witnessed a 5-month high in inflation, posing challenges for the Reserve Bank of India (RBI) in meeting its inflation targeting mandate.

#### 1) National E-Assessment Centre:

All communication among the other units or with the assessee or any other person with respect to the information or documents or evidence or any other details, as may be necessary for the purposes of making an assessment under this scheme shall be through the National e-Assessment Centre (NeAC).

## 2) Regional E-Assessment Centre:

Thirty Regional e-Assessment Centres (ReACs) each headed by a CCIT have been set up. Regional e-Assessment Centre's major function is to facilitate the conduct of e-assessment proceedings in the cadre controlling region of a Principal Chief Commissioner, which shall be vested with the jurisdiction to make the assessment in accordance with the provisions of this scheme.

## 3) Assessment Units

Ninety-Five Assessment Units (AUs) headed by the PCIT each having 4 Ranges with DCIT/ACIT and ITOs are under the ReAC. They will identify issues, seek information and analyse material to frame draft assessment orders. They shall perform the function of making assessment, which includes identification of points or issuing material for the determination of any liability (including refund) under the Act, seeking information or clarification on points or issues so identified, analysis of the material furnished by the assessee or any other person, and such other functions as may be required for the purposes of making assessment.

## 4) Verification Units (VUs)

Thirty-Five Verification Units are part of ReACs, each headed by the PCIT and having Range Head with DCIT/ACIT and ITOs with functions to:

- Conduct E-verification u/s 133C
- Conduct enquiry, examination of books of account, examination of witnesses and recording of statement
- Conduct Physical Enquiry only in instances covered by Pr.CCIT NeACs order 12(vi) of the scheme

They shall perform the function of verification, which includes enquiry, cross verification, examination of

books of accounts, examination of witnesses and recording of statements, and such other functions as may be required for the purposes of verification.

## 5) Review Units

Twenty Review Units headed by the PCIT each having Range Head with DCIT/ACIT and ITOs for Review of Draft Assessment Order are part of the set up. They would examine whether material evidence has been brought on record, points of facts and law incorporated, application of judicial decisions considered and ensure arithmetic correctness etc. They shall perform the function of review of the draft assessment order, which includes checking the following:

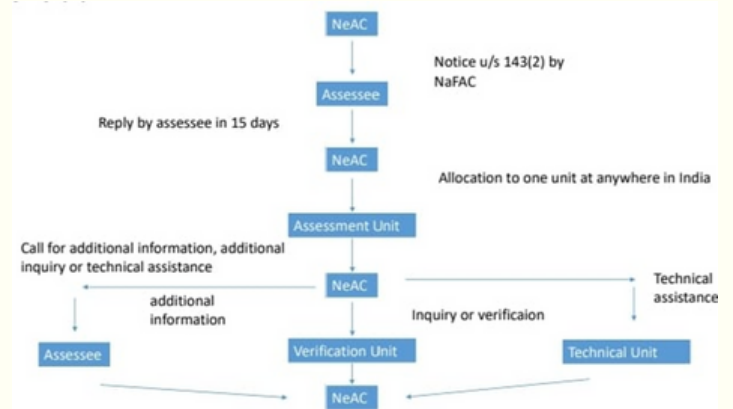

- Whether the relevant and material evidence has been brought on record;
- Whether the relevant points of fact and law have been duly incorporated in the draft order;
- Whether the issues on which addition or disallowance should be made have been discussed in the draft order;
- Whether the applicable judicial decisions have been considered and dealt with in the draft order;
- Arithmetical correctness of modifications proposed, if any; and
- Any other functions required for the purposes of review.

## 6) Technical Units

Four Technical Units headed by the PCIT each having Range Head with DCIT/ACIT and ITOs shall be under the Pr. CCIT (NeAC) and will provide the technical support and input. They shall perform the functions of providing technical assistance which includes any assistance or advice on legal, accounting, forensic, information technology, valuation, audit, transfer pricing, data analytics, management or any other technical matter which may be required in a particular case or a class of cases, under this scheme. All actions of AU, VU, RU & TU Officers are to be approved by the respective Range Heads. All communication among the units or with the assessee or any other person with respect to the information or documents or evidence or any other details, as may be necessary for the purposes of making an assessment under this scheme shall be through the National e-Assessment Centre.

**FEATURES OF FACELESS ASSESSMENT SCHEME:**

- Data driven selection of cases for scrutiny using data analytics and Artificial Intelligence.
- Abolition of territorial jurisdiction. Return of a taxpayer belonging to one city would be scrutinized anonymously by AOs based in other city
- Automated random allocation of cases to Assessment Units through computer.
- Centralised issue of notices using unique Document Identification Number (DIN) through electronic modes.
- No human interface and no need to visit the Income Tax Office.
- All Response to be submitted electronically.
- Team-based assessments and team based review.
- Functional Specialisation for specific parts of assessment by different specialized units.
- Only a single point of faceless contact between the taxpayer and the Department.
- Adverse Draft Assessment Order shall be provided to taxpayer for response before finalization of the assessment order.
- Dynamic Jurisdiction : Draft assessment order in one city, review in another city and finalisation in a third city.
- Ease of tax compliance through uniformity in application of law.

**THE E-ASSESSMENT PROCEEDINGS:**

The tax payer or assessee files their income tax return with department through income tax portal. Assessee covered under audit provision file their return, submit audit report and upload financial statement online. Cases are selected for scrutiny purpose, on the basis of all above mentioned data submitted by various assessee.

**ISSUES UNDER FACELESS PROCEEDINGS:**

- 1) There is practice passing high pitched assessment in some cases with huge additions and resulting demands, without reasonable technical grounds.
- 2) There is lack of accountability. This substantially affects Indian taxpayers as well as NRI investments adversely and thus national economic interest also suffers.
- 3) It is seen from faceless assessments and appeals that even though the submissions and explanations are filed and are on portal, yet without looking into them fresh notices are issued on the same issue.
- 4) No real time alert is given, the assessee every time has to keep some body on the portal, which is not practical for a general taxpayer.

**EXCEPTIONS TO FACELESS ASSESSMENT :**

The Scheme as of now excludes assessments made by International Taxation jurisdictions and assessments following Income Tax search and other cases that may be assigned to Central Charges. The Scheme provides that the Pr.CCIT (NeAC) can transfer a case at any stage of proceedings to the Jurisdictional Assessing Officer with the approval of the CBDT.

तारा मांगे आसमां ये सारा,  
 क्या करे फिर परिंदा बेचारा,  
 कहाँ जाये वो अपना घर बसाने को,  
 दुवाये मांगी जिसने बस आसमां पाने को।

तकलीफे औरो कि ना नज़र आती हैं,  
 ज़ुरते जमाने की कहुर ढाती हैं,  
 मौसम को दोष ना दो जनाब,  
 इनका तो जनम ही हुआ है बदल जाने को।

माना की सबका नजरिया अलग हैं,  
 लेकिन सही पाने का जरिया गलत है,  
 तभी तो तारा है आसमान पे छाया,  
 दर्द परिंदे का ना किसीको नजर आया,  
 तड़पता रहा वो अपनी चाहत पाने को,
