Research Committee

Aimed at building greater research capacity, the Institute of Chartered Accountants of India (ICAI) has consistently been striving for excellence and distinction in the areas of Research and Innovation in the subjects of national importance and has supported the regulatory initiatives aimed towards bringing Indian economy back on the growth trajectory.

It is said that 'Research is formalized curiosity'. Over a period of time, Doctor of Philosophy (Ph.D.) Programme has evolved gradually from its purpose of 'knowledge dissemination' to 'knowledge creation'. This shift in emphasis has, thus, created an ecosystem of advanced research and publications.

We are happy to share that the Institute of Chartered Accountants of India (ICAI) through its Research Committee had introduced ICAI Doctoral Scholarship Scheme in 2020 for the members who wish to pursue Ph.D.

The said scheme seeks to provide requisite support by way of monthly scholarship to the eligible candidates with outstanding academic credentials, intellectual curiosity and needed discipline to make scholarly contribution. The candidates under the Scheme have to demonstrate their independent research ideas through publications in top class academic journals and make scholarly presentations of their work. Their contributions should extend not only to business practices, but also to public policy and governance.

Taking the initiative forward this year as well, we invite you to ICAI Doctoral Scholarship Scheme 2021 and would be happy to know your academic interests if you have the inclination and commitment towards research that shall further strengthen your career.

FORMAT OF RESEARCH PROPOSAL

- Other than the mandatory information accompanying each application, candidates should submit their research proposal in two parts:
 - a) abstract of the research proposal (about 300 words)
 - b) detailed research proposal (about 3000 words) an indicative outline for the detailed research proposal is given below:
- **Title:** The research proposal should have a clear, meaningful and concise title reflecting the scope of the investigation.

- **Introduction:** The research proposal should begin by clearly stating the research problem to be investigated in the light of its theoretical and/or empirical context in the relevant area.
- **Objectives of the study:** The general aim of the study as well as its specific objectives should be clearly stated in the proposal.
- **Research questions or hypothesis:** Given the conceptual framework and the specification of dimension, the specific questions to be answered through the proposed research should be sharply formulated. In the case of an explanatory research design, specification of variables and positing of relationship among them through specific hypothesis must form a part of the research proposal.
- **Review of literature (National & International):** The proposal should summarize the current status of research in the area and major findings, including the researcher's own work in the area. Existing empirical findings may also be discussed. The overview should clearly demonstrate the relevance as well as inadequacy of existing findings or approaches and provide a rationale for the proposed study.
- **Research Methodology:** The researcher must describe in detail (a) the scope and coverage of her/his study; and (b) approach and methodology with adequate justification. Emphasis should be given to bringing out innovativeness in approaches proposed to be followed. The detailing of the methodology may include research design, data to be collected and empirical and analytical methods to be used. The description of the methodology must be clearly linked to the aims of the research and the research questions/hypothesis of the study.
- **Relevance and anticipated outcomes:** The proposal should include a statement on the relevance of the study and the anticipated outcomes. It should bring out the significance of the research problem, the contribution which the proposed study is expected to make to theory and to methodology as well as its practical importance to society and policy making. It should also describe the proposed outputs from the study (books, research papers, occasional papers with themes etc.)
- **Tentative Chapterisation:** Details chapterisation should be clearly spelt out in the research proposal
- **Bibliography:** Bibliography should be prepared in Chicago manual style.
